

RECENT TREE TRIMMING

Recently Castro Tree Service was contracted to trim trees throughout the community. Several “red” flags preceded the appropriation of these funds.

- Castro’s lack of appropriate insurance

Why was Castro given leniency on the lack of insurance? This should have been an immediate denial. Turtle Rock residents are not afforded this option when submitting applications to the ARC.

- Castro’s past history of issues

Castro had the same issue with oil leaks previously. This fact was brought up by Curt at a board meeting. Why would we hire him again?

- Castro’s requirement of partial payment

I have been in the construction business for nearly 30 years, I have rarely, if ever seen an instance where a large downpayment was required for a service contract, especially if there was a past relationship. Typically, this would be reserved for vendor required rental of special equipment or such.

Castro should be on the “DO NOT HIRE” list
